

# HERDLY

## YOUR RANCH IN HAND

### Live Dashboards

Always know how your ranch is doing with over 100 live reports in the Dashboard.

### Sync Devices

Your changes are automatically synced across other devices so you are always up to date. Mac, Windows, iPhone, and iPad are supported.

### Works Offline

All your ranch information is on your device so you can continue using Herdly when you don't have an internet connection.

### Detailed Animal History

Every animal's full history is available whenever you want to look. Quickly jump to different parts of its history.

### RFID Reader Integration

Working with an individual animal is as simple as scanning its RFID tag. Most commercial RFID readers are supported.

### Automatic Exposure Detection

Exposure records are automatically handled when cows or bulls are moved in and out of locations.

### Deep CCIA Integration

CCIA events are automatically created as you use Herdly. When you're ready, send them off to CCIA with one click. No web browser required!

### Multiple Ranches

Involved with more than one ranch? No problem. Switch between unlimited ranch accounts on each device.

### Great Documentation

Herdly documentation is comprehensive, publicly available, and includes fast-paced videos to bring you up to speed quickly.

### Photos

Add photos of your animals right within Herdly at key times in their life or whenever you want.

### Demo Ranch

Comes with a demo ranch which you can use as long as you like. You also get a 30 day free trial with your own ranch.

### A Whole Lot More

Advanced filtering, preg checking, mating, RFID integration, gestation calculator, breeding pool, treatment records, and much more!
